## Port Washington Harbor, WI

### Project Features

- Located on the west shore of Lake Michigan, about 53 miles south of Manitowoc and about 29 miles north of Milwaukee, WI.
- Authorization: River & Harbor Acts of 11 Jul 1870, 14 Aug 1876.
- Deep draft commercial harbor.
- Project depth of 21 feet below LWD in entrance and inner channels and 18 foot depths in inner basins.
- 100,000 tons of material shipped or received in 2004.
- About 3,000 feet of structures including breakwaters and piers.
- Over one-half mile of maintained channel.
- Major stakeholders include U.S. Coast Guard and Lake Carriers Association.

### Project Needs

- Approximately 10,000 to 15,000 cubic yards of material must be dredged from the inner basins on a 10 to 15 year cycle.
- Navigation structures are primarily maintained by Government floating plant.

### Consequences of Not Maintaining the Project

- Significant loss of jobs both locally and regionally.
- Light loading associated with inadequate maintenance dredging, increasing vessel transportation costs.

### Transportation Importance

- Locally significant receiving port on the Great Lakes.
- Commodities include coal and lignite.

### U.S. Army Corps of Engineers Fiscal Year (FY) 2007, 2008 and 2009 Port Washington Harbor, WI - Project Needs and President's Budget
